flextreme
FLEXIBLE TO THE EXTREME

Sonocare from MediaLogic is a one-stop solution for managing, tracking and reporting a wide range of ultrasound studies. Designed by professionals with decades of experience in clinical ultrasound practice and in information technology. Sonocare can streamline the day-to-day activities of your ultrasound clinic.

SONOCARE

is a comprehensive and flexible reporting package designed to suit the needs of a small clinic or a large imaging centre.

facilitates structured ultrasound reporting with simple and easy to use screens.

is modular and has an optional imaging engine for storage, archival and retrieval of both DICOM & NON-DICOM images.

is your constant companion in imaging and reporting.

TRY IT TODAY...

BEYOND TRADITIONAL APPLICATIONS

Sonocare incorporates new breakthroughs in clinical reporting by adding features that eliminate the mundane and simplify the arcane.

SONOCARE

- Track patient demographics, clinical case histories, measurement histories & images
- Comprehensive & informative reports from relevant data sources within the application

**CUSTOMIZABLE
STRUCTURED REPORTING**
International Standard

OBSTETRICS & GYNECOLOGY

- Early Pregnancy, I, II & III - Trimester
- Molar & ectopic pregnancy
- Obstetrics Case and Medical history
- Fetal Growth curves BPD, HC, FL, AC, EFW
- Reduce Fetus option
- Reports - Abnormal, Detailed, Brief

GENERAL ABDOMEN

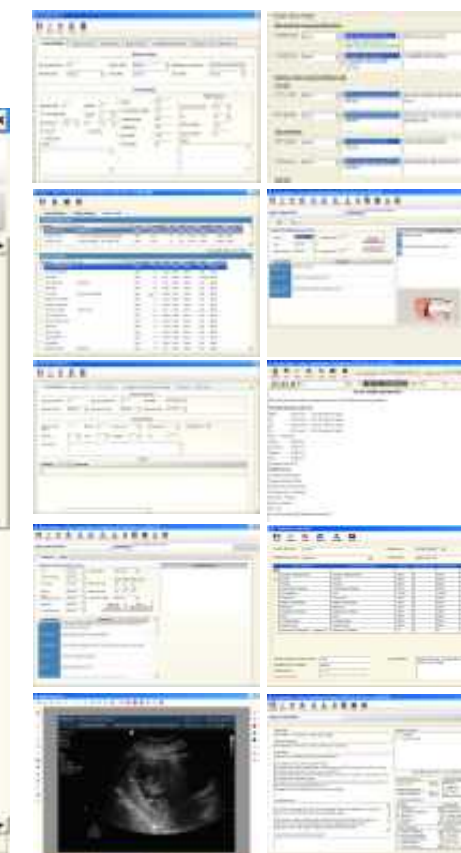

- Upper Abdomen - Liver, Pancreas
- Kidney Uterus Bladder
- Pelvis
- Standard techniques for scan with
- Normal reference range of nomogram

IMAGE CAPTURE

- Single/multi-frame video capture
- Supports DICOM, NON-DICOM source
- Supports Video For Windows standards

IMAGE VIEW & PROCESSING

- Array of images in customizable sizes
- Tree view - hierarchical listing of visits
- Image post processing
- Manual/auto zoom
- Preset ROI lens movement
- Predefined annotations
- Advanced image search
- Image filters
- Offline measurements on stored images including doppler measurements

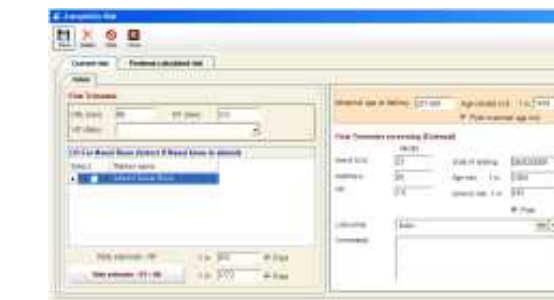

ENHANCED FEATURES

- AUTOMATED NT MEASUREMENT
- QUERIES AND STATISTICS
- PERIODICAL PNDT REPORTS
- ADVANCED DATA SEARCH
- IMAGE SEARCH
- OUTCOME MANAGEMENT
- CASE HISTORY
- PATIENT DATA IN CD ROM
- DATA SECURITY

SONOCARE FM

Xpert query

Facility to search by any one or combination of fields

ICD10 coding

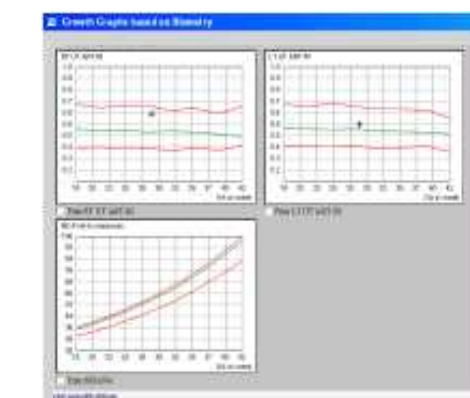

- Assign provisional ICD code and Final ICD code
- Assign ICD codes for specific diagnosis
- ICD Search query

SMS

- Instant alerts to patients for appointments and reports
- Receive instant alerts from patients for appointments
- Message queue

- First trimester risk prediction
- Risk Calculations for Maternal age
- NT Risk Estimate
- NT+NB Risk Estimate

- Outcome Management
- Growth curves
- Doppler Growth chart

SONOCARE FM

Specially designed for Fetal Medicine practitioners
