Outcome

## SONOCARE

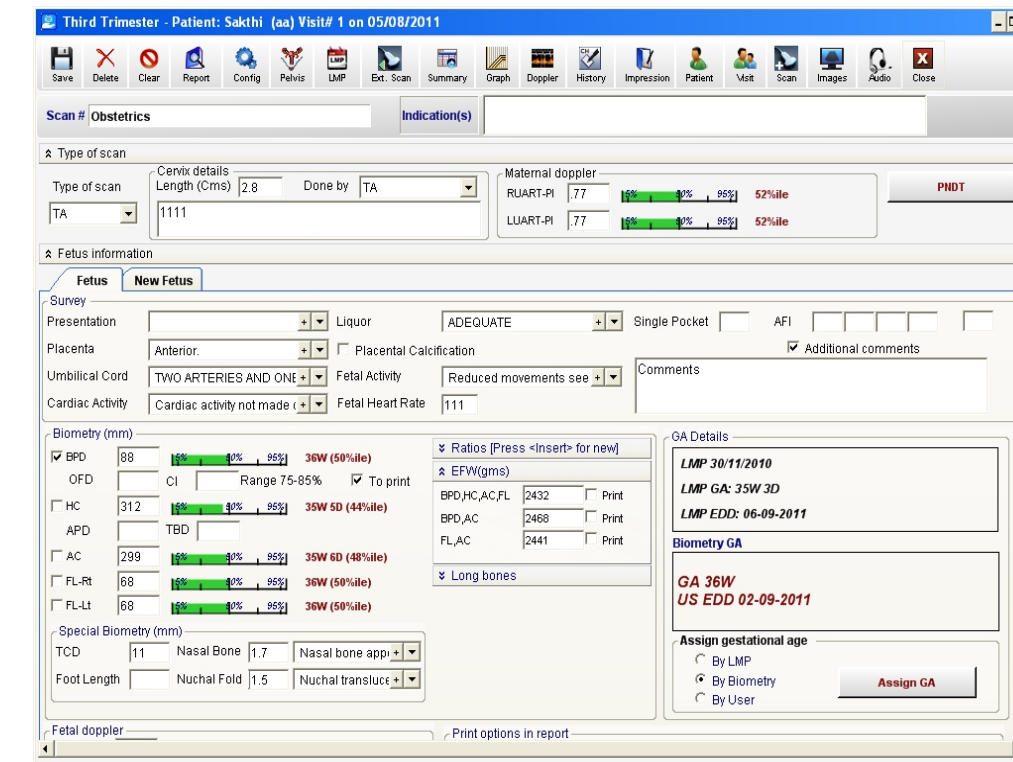

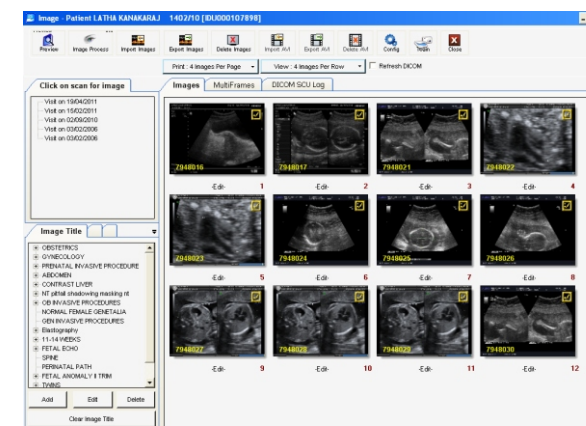

Sonocare from Medialogic is the one-stop solution for managing, tracking and reporting a wide range of ultrasound studies. This product has been designed by professionals with decades of experience in clinical ultrasound practice and information technology. Sonocare presents a simple and user-friendly interface. You can experience the advantage of flexible reporting options tailored to individual needs. Automated reporting features reduce manual intervention and maintain accuracy for structured reporting.

## AUTOMATING YOUR WORKFLOW

## SONOCARE

- Comprehensive and flexible reporting package for a small clinic or a large imaging centre
- Structured ultrasound reporting with simple and easy to use screens
- Modular and easily upgradable to higher version
- Imaging engine for storage, archival and retrieval of both dicom & non-dicom images

## Patient Demographics

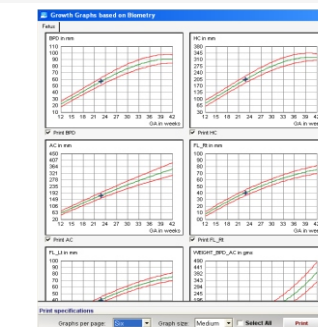

Systematic mechanism to capture the patient details  
Archives every visit with date, time and referral doctor's details  
Supports manual or system generated patient ID's
